# Access. Awareness. Action.

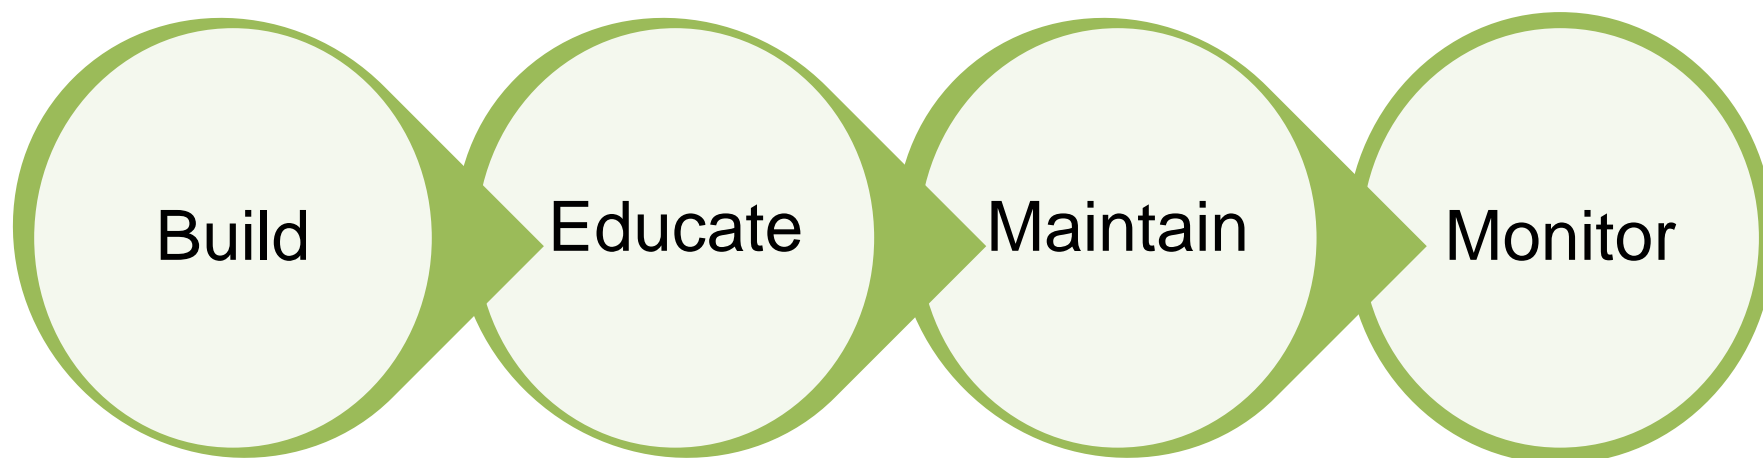

**Access:** To construct/renovate sanitation facilities at government schools across India by building toilet blocks, impacting more than 30000 disadvantage girls.

**Awareness:** To raise awareness on the best practices related to sanitation and hygiene among school children, teachers, parents and communities using corporate and community volunteers.

**Action:** To engage policy makers & stakeholders through advocacy and capacity building on Sanitation and Hygiene issues so that it becomes an important part in the school curriculum.

“Since everybody goes through the same kind of feelings, I feel no more fear and I feel the need to be healthy during periods and also, I am going to teach the same to other children.”

-Student, Hennagara GHS
